

Creative Challenge task:

We have been studying Macbeth in class and we have really enjoyed it. I would like you to have a go at making your own Globe Theatre where most of William Shakespeare's plays would have been performed. I have attached some paper models and templates which you could use or if you're are feeling super creative you could do some research and make one of your own. You could even make lolly stick characters from Macbeth and perform the play for your family.
