

St Mary's Catholic Primary school remote learning planner Class 3

Week beginning: 29th June 2020 - if you have any queries regarding your child's learning please email your child's teacher- taylor@lea-st-marys.lancs.sch.uk We would love to see pictures of your home projects too!

This week I have set you some interesting English work all linked to an exciting short film. I have also set you lots of investigation maths challenges which you could try. Have a look at all the different activities and remember to try your best. If you need help with anything you can always email me.

Take care

Mr Taylor

English

Creative writing. This week our English is going to be based on a short film called 'Catch a lot.' In the film a Dad and his Son go whale hunting but they have different opinions about their job! Before you watch download the pack off our class page. There is a collection of questions for you to answer as you watch so you might need to re-watch a few times. Also, in the pack, are some word activities, description and research-based tasks. Use the whole week to work through the different activities. I would love to put some of your writing up on our class page. You can watch the clip on the following websites-

- 1- <https://www.youtube.com/watch?v=OAJi8DILjFs> Youtube
- 2- <https://www.literacyshed.com/catch-a-lot.html> Literacy Shed.

Maths

For a maths starter visit the following website

<https://www.topmarks.co.uk/maths-games/daily10> Choose either level 3 or 4 on the following website and practise any of the skills. (Addition, subtraction, partitioning etc)

Look at and download the work for week 9 on the following website. This begins with work on addition which should be familiar from last week.

<https://www.hamilton-trust.org.uk/blog/learning-home-packs/>

If you need more maths here are some daily maths challenged that you could try. You might need an adult to explain them to you but then try and solve/investigate them independently. Just persevere and keep trying as some of them are quite tricky.

<https://nrich.maths.org/7506> Try and work out which seven numbers were chosen.

<https://nrich.maths.org/10592> Try and make the pyramid so that 15 is at the top.

<https://nrich.maths.org/make37> Can you make 37 using the numbers provided.

If you solve any of these please send me your answers!!!!

Spelling

Try to practise the spelling words for a short time every day. As well as learning how to spell them make sure that you look up what they mean so that you can use them in your writing. Try putting them in your own silly sentences or finding similar words that mean the same. Remember the many ways you can practise the words independently.

- Pyramid words
- Say, copy, cover, write, check
- Spiral words
- Picture words

At the end of the week get an adult to test you and send me your spelling score. Who will get the highest score this week?

R.E

The Beatitudes reveal what Jesus wants us to do with our lives. Watch the short presentation on our class page which shows how we can be blessed and live our lives as Jesus taught us. Choose one of the beatitudes and think how you could live it out this week. For example- how could you show kindness this week? Or how could you reach out to those who are sad and lonely? Make a list of ideas with a picture for each which shows how you could follow Jesus' teachings. There is also a collection of activity ideas on our class page linked to The Beatitudes.

The Beatitudes

Based on Matthew 5:1-17

DT/Science - Making a healthy snack

First watch the following clip on the importance of healthy eating.

<https://www.bbc.co.uk/newsround/32017582>

To stay healthy, we should eat a balanced diet. Look at the Eatwell plate which shows how much of each type of food we should eat on average.

https://assets.publishing.service.gov.uk/government/uploads/system/uploads/attachment_data/file/528193/Eatwell_guide_colour.pdf

There is then an activity on our class page where you must sort the different types of food onto the Eatwell plate.

Once completed can you create your own healthy snack. Send me a picture and write the recipe for how to make it.

Geography

The water cycle.

It has been very rainy recently so I thought we would learn about the water cycle. Water on earth is constantly moving, being recycled and used again. Learn about this here-

<https://www.bbc.co.uk/bitesize/topics/zkqg87h/articles/z3wpp39> On our class page you will find a diagram showing the water cycle for which you need to fill in the missing words. Once you have done this create your own diagram about the water cycle. There is also a 2do on purple mash where you can explain what happens.

Year 3

Words ending with
a /cher/ sound
spelt as 'ture'

lecture

literature

mature

miniature

mixture

moisture

sculpture

signature

temperature

texture

Year 4

Adding the suffix
-ous (Words ending
in 'e' drop the 'e'
but not 'ge')

famous

nervous

ridiculous

carnivorous

herbivorous

porous

adventurous

courageous

outrageous

advantageous
