

## Pick and Mix Homework Autumn 2

### Maths

You add up all the numbers you pass in this maze. Can you get through so that the answer is 100? What is the highest total that you can make? What is the lowest total that you can make?

Can you make your own maths maze where you can get through it and make 100? 200? 1000?

### English

In English I want you to write a revolting recipe. What magical potion or disgusting snack could you create? How could you describe your many ingredients? How will you make your instructions easy to follow?

### History

In History we are learning about World War Two. On Remembrance Day we think about the sacrifice made by so many during wars. Create a remembrance poster or leaflet decorated appropriately.

### Science

To stay fit and healthy we should exercise. When we exercise our hearts start to beat faster. Choose 5 activities to complete and then measure your heart rate for one minute. Which exercise made your heart beat the most in one minute? Why do you think this was?

### RE

Make an advent promise list. Think of 24 promises you could try and meet on every day up to Christmas. How could we follow in Jesus' footsteps during this special time?

Please get an adult to email me any of these completed tasks. I cannot wait to see your brilliant work!
