

Pick n Mix A

R.E.

Write and illustrate your own version of the Christmas story to share with a Class 1 buddy.

English

Watch the film on the following link:

<https://www.literacyshed.com/flight.html> A boy recalls how he learnt to fly and shares how he can now 'fly' in different ways.

What do you love to do? What might your super power be?

Using everything you learnt from our story writing last term, I would like you to write your own magical superpower adventure story.

Maths

Choose two or three places within the UK. Record their different temperatures over a week. Show your records in either a line graph or bar chart.

Geography

Create a leaflet to persuade people to visit Blackpool. We are going to need to re-advertise Blackpool when the pandemic is over. Include lots of pictures of physical and human geographical features and ensure you use persuasive language to convince them that Blackpool is not to be missed.

Art

This half term we are learning about abstract artists and will be using some of their techniques to create a solar system inspired piece of abstract art. Create your own abstract painting, drawing or sculpture of Planet Earth. Perhaps you might want to undertake some artist research and discover who your favourite abstract artist is!

Science

Use the sheet attached to keep your own 'Moon diary'. What do you notice? Can you identify the different shapes of the moon and what do you notice about the sequence of moon changes?
