

In Geography this half term we are going to be learning about the rainforests. I want you to complete a topic project today by researching different animals that live in a rainforest habitat. The following website might help with your research.

[Rainforest Animals List With Pictures, Facts & Links to Further Information \(activewild.com\)](http://activewild.com)

I want you to write an information piece about a few of your animals. So, remember what a good information text must have-

- Heading and sub-headings.
- Pictures of the animals with a caption underneath.
- Writing in sections.
- Adjectives to describe.

Email me your completed project with all the above and you will win house points. The best ones will go on our class page also!
