

# Knowledge Organiser - Pleas Sir, can I have some more? - Class 4

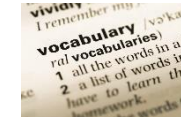

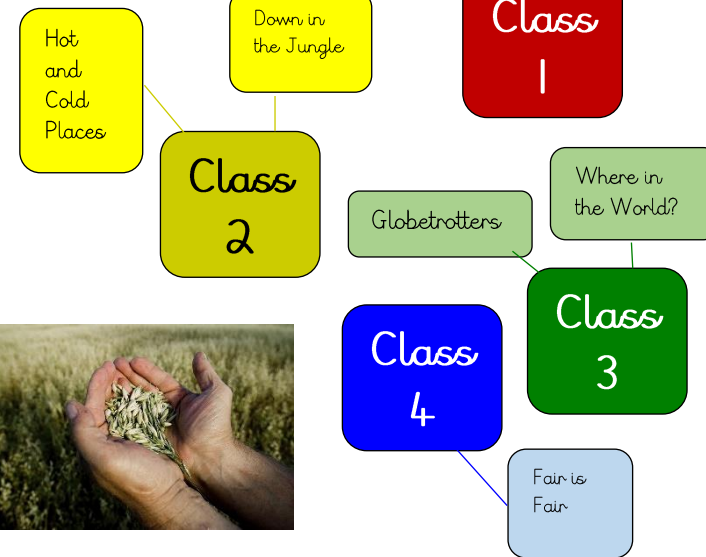

## Sticky Knowledge

- ✓ Fair Trade schemes are designed to ensure farmers/growers of crops are paid a fair wage for their products.
- ✓ There are seven continents around the world; these are North America, South America, Europe, Asia, Africa, Australasia and Antarctica.
- ✓ There are five oceans around the world; these are Pacific Ocean, Atlantic Ocean, Indian Ocean, Arctic Ocean and Southern Ocean.
- ✓ The Pacific Ocean is the largest ocean in the world.
- ✓ Physical features are created/grow/form naturally, e.g. mountains, forests, rivers, volcanoes.
- ✓ Human features are made and built by humans e.g. buildings, roads, motorways, towns, cities.
- ✓ A dairy farm has cows which are used to produce milk, which is also used to produce dairy products.
- ✓ An arable farm is a farm which only grows crops such as barley and wheat.
- ✓ A mixed farm has facilities to produce crops and cows to produce milk.
- ✓ A biome describes what a place is like and has its own specific climate e.g. aquatic, grassland, forest, desert, and tundra.
- ✓ A vegetation belt refers to the plant and plant life within a biome.

## BIG Idea

Crops, resources, food and many other things we need and use everyday, are grown and made all over the world. Fair Trade schemes ensure the growers of crops are paid a fair wage for their product/s and work. Different crops are grown in different parts of the world which is why we import them into our country.

## Vocabulary

- Natural-** something that occurs within nature.
- Resources-** something that is used to produce something else, e.g. tools, equipment.
- Farming-** involves cultivating the land and raising livestock.
- Crops-** a plant which is grown to harvest and used to make a profit from.
- Import-** something that is brought into a country or place.
